

Barbara G. Vickrey, M.D., M.P.H., is Professor and System Chair of Neurology at the Icahn School of Medicine at Mount Sinai. She specializes in translating clinical evidence into improvements in routine medical practice to improve patient health. Among her accomplishments are demonstrating that collaboration among health care systems, community organizations, and caregivers can improve quality of care and outcomes for dementia patients. She has designed health-care delivery innovations ranging from better control of post-stroke risk factors in underserved populations to new ways to care for veterans with Parkinson's disease. Dr. Vickrey is a member of the National Academy of Medicine. Dr. Vickrey served for 25 years on the faculty of the University of California, Los Angeles (UCLA), where she was professor of neurology and director of the departmental Health Services Research Program. She was also associate director for research at the Greater Los Angeles Veterans Administration Parkinson's Disease Research, Education and Clinical Center. Dr. Vickrey earned her M.D. at Duke University School of Medicine and her M.P.H. at the UCLA School of Public Health. She completed postgraduate clinical training in medicine and neurology at the University of Washington in Seattle, and then research fellowships in the Robert Wood Johnson Clinical Scholars Program at UCLA and the RAND/UCLA Center for Health Policy Study.
