

Maisha T. Robinson, M.D., MSHPM, FAAN is an Assistant Professor in the Department of Neurology at Mayo Clinic in Florida, with a joint appointment in the Department of Family Medicine. Upon joining the staff of Mayo Clinic, she established the clinic's first neuropalliative care program and she currently serves as the Medical Director of Palliative Medicine, as the Program Director for the Palliative Medicine Fellowship, and as the Chair of the Ethics Subcommittee.

Dr. Robinson earned her undergraduate degree from Princeton University and her medical degree from Tufts University School of Medicine, subsequently completing a residency in neurology at Mayo Clinic in Minnesota, where she served as chief resident. She pursued a fellowship in hospice and palliative medicine at Memorial Sloan Kettering Cancer Center and returned to Mayo Clinic in Florida for a neurohospitalist fellowship. She was awarded a postdoctoral fellowship in health services and health policy research through the Robert Wood Johnson Foundation Clinical Scholars Program at UCLA, during which she earned a Master of Science degree in health policy and management and engaged in research focused on the intersection of neurology and palliative medicine. Dr. Robinson has spoken nationally and internationally on neuropalliative care, she edited a book titled Case Studies in Neuropalliative Care, and she is a member of the American Board of Internal Medicine Test Writing Committee on Hospice and Palliative Medicine. She is also very active with the American Academy of Neurology, currently serving as the Chair of the Member Engagement Committee and as a member of the Board of Directors.
