

Margaret Swanberg, DO

Dr. Swanberg is associate professor of Neurology, Psychiatry, and Neuroscience, at the Uniformed Services University (USU). She currently serves as the Neurology Clerkship Director, Clinical Neurology Course Director for Neuroscience module, and as a neurobehavioral specialist in the Department of Neurology at the Walter Reed National Military Medical Center. She is also pursuing a Master's in Health Professions Education, with an interest in the validity and reliability of the outcomes following direct observation of medical trainees. Dr. Swanberg is a 2019 recipient of an AB Baker teacher award from the American Academy of Neurology. Prior to arriving at USU, she served for 22 years in Army as a neurologist and was awarded the Legion of Merit upon retirement in 2016. While on active duty she had assignments to Madigan Army Medical Center, Womack Army Medical Center, Walter Reed Army Medical Center and had one deployment to Iraq where she served as Battalion Surgeon for the 47th Forward Support Battalion. Immediately prior to taking a position at USU, she served as the Program Director for the National Capital Consortium Adult Neurology Residency Program. She has published on cognitive and neuropsychiatric symptoms associated with dementia. Her current research interest is in the emergence and management of agitation in dementia.
