

Megan Richie attended medical school and residency at the University of Pennsylvania and a Neurohospitalist fellowship at UCSF. She joined the faculty at UCSF in 2016, and spends most of her time seeing patients on the inpatient neurology consult and primary services at UCSF Health including the Parnassus and SFGH campuses. Dr. Richie is actively involved in teaching medical students, residents & fellows and directs the neurology medical student clerkship, the Master Clinician flexible residency and an outpatient lumbar puncture clinic for residents. Research interests include neuro-inflammatory and neuro-infectious disease as well as medical education.
