

Dr. Wolfgang Muhlhofer obtained his medical degree from Heidelberg University Medical School in Germany. He completed his neurology residency at the University of Rochester in Rochester, NY, and a clinical neurophysiology and epilepsy fellowship at the University of California San Francisco. Dr. Muhlhofer is currently associate professor, director of the neurology clerkship interprofessional simulation program and director of epilepsy education at the University of Alabama at Birmingham (UAB). He received a master's in healthcare simulation from the UAB School of Health Professions and has a special interest in utilizing healthcare simulation as part of clinical education and training to promote patient safety, quality of care and concepts of high-reliability organizations.
