

## **Jessica G. Moreland, Bio**

**Dr. Jessica Moreland is currently the Associate Dean for Faculty Development, Professor of Pediatrics & Microbiology, and the Thomas Fariss Marsh, Jr. Chair in Pediatrics at UT Southwestern Medical Center. She serves as the Division Chief of Pediatric Critical Care for UTSW and Children's Health Dallas. In this capacity she oversees all the Pediatric Critical Care Services at Children's Health and provides clinical care to critically ill children. Dr. Moreland received her medical degree from Vanderbilt University and remained at Vanderbilt for her Residency in Pediatrics and her Fellowship in Pediatric Critical Care. She was subsequently recruited to the University of Iowa as a Physician Scientist and remained at Iowa for 16 years rising to the rank of Professor with Tenure. She was recruited to Dallas and UTSW in 2013 to lead the Division of Critical care. Her laboratory-based research program focuses on elucidation of the cell biology of neutrophil-based inflammation. In her new role as Associate Dean, she seeks to enhance the development opportunities for the UTSW faculty community at large with new offerings in development.**
