

Dr. Alfred (Tom) Frontera received his undergraduate degree in biology from Harvard University and his medical degree from the University at Buffalo. He completed his neurology residency and a 2-year fellowship in clinical neurophysiology and epilepsy at Columbia University and is board-certified in adult neurology, clinical neurophysiology and epilepsy. A native of upstate New York, he was transplanted to Tampa, Florida in 2009 when he joined the faculty at the University of South Florida Morsani College of Medicine. He served as the Co-Director of the Neurology Clerkship and the Associate Program Director of the Neurology Residency for 7 years prior to assuming the role of Residency Program Director in 2018. In these roles, he has helped to redesign and develop the clinical, didactic and simulation-based educational experiences in neurology for the USF medical students, residents and fellows, much of which occurs at the James A. Haley Veterans' Hospital in Tampa. Dr. Frontera is currently an Associate Professor of Neurology, Vice Chair for Faculty Affairs within the Department of Neurology and the President of the USF Morsani College of Medicine Faculty Council. He also serves as the Deputy Chief of Neurology and the Director of the Epilepsy Center of Excellence at the James A. Haley VA. His clinical time is focused on the diagnosis and medical/surgical treatment of epilepsy with a particular interest in EEG monitoring in critically brain injured patients. He lives with his wife, 5-year-old daughter and two Boston terriers in Tampa.
