

Dr. Bashir received his MD from the King Edward Medical College in Pakistan. He received his MPH in Epidemiology and Graduate Certificate in Healthcare Quality and Patient Safety from UAB. After completing his internship and post-graduate residency training in combined Internal Medicine and Neurology at the Southern Illinois University School of Medicine, Springfield, Illinois, Dr. Bashir completed his advanced fellowship training in Neuroimmunology and Multiple Sclerosis under the tutelage of John N. Whitaker, MD. Dr. Bashir is currently a Professor of Neurology, Director of Division of Neuroimmunology/Multiple Sclerosis and the Co-Director of the Multiple Sclerosis Center at UAB. Dr. Bashir has co-authored a "Handbook of Multiple Sclerosis", in addition to publishing several review articles, abstracts, peer-reviewed scientific papers, and book chapters. Dr. Bashir has served as a Principal Investigator and a Co-Investigator for greater than 40 multi-center clinical trials related to CNS demyelinating disorders. He has served as the Vice Chair for Education and Neurology Residency Program Director at UAB since 2006. He previously was the Fellowship Program Director for the Neuroimmunology/MS Fellowship at UAB. Currently, Dr. Bashir serves as medical student advisor, graduate student advisor and mentor for junior faculty at UAB. He is an active member of the UAB Dean's Council for Graduate Medical Education and the GME Executive Committee. He serves on the UAB Hospital Patient Safety, GME Patient Safety and Health Information Management Committees. In these roles, he has had extensive and direct experience in educating, training and mentoring physicians and researchers at UAB.
