

Department of Neurology
UNIVERSITY OF WISCONSIN
SCHOOL OF MEDICINE AND PUBLIC HEALTH

University of Wisconsin-Madison Opportunities

The Department of Neurology at University of Wisconsin is expanding several programs and is recruiting multiple faculty in the following areas: [Adult General Neurology](#), [Alzheimer's, Epilepsy \(CHS/CT\)](#) and [Epilepsy \(Tenure\)](#), [Headache](#), [Neurointensivist](#), [Neuro-Oncology \(CHS/CT\)](#) and [Neuro-Oncology \(Tenure\)](#), [Pediatric Neurology \(CHS/CT\)](#) and [Pediatric Neurology \(Tenure\)](#), and [Stroke/Neuro-hospitalist](#).

We are seeking an Assistant, Associate or Full Professors on the clinician-teacher, CHS track and/or Tenure tracks. Candidates must hold a M.D., MD/PhD or DO, be Board certified or board eligible in neurology, and/or the ability to obtain a Wisconsin Medical License. Fellowship training or equivalent experience is required for subspecialty positions. Clinical activities will involve attending duties in neurology clinics and on inpatient services at the University of Wisconsin and affiliated regional hospitals and clinics. Teaching responsibilities include teaching medical student courses and clerkship, mentoring graduate students and trainees, training residents, fellows and medical students, and teaching continuing education programs for physicians and the public. Candidates will be able to develop a research program that could also be integrated into clinical activities.

The Department of Neurology currently has active and robust clinical programs in all of these areas at a nationally recognized academic hospital. The Department currently has a medical school clerkship, expanding adult and pediatric neurology residency programs, and several fellowship programs.

Wisconsin's capital, Madison, has been and continues to be consistently listed as a "best" city to live and work in. It is a vibrant, diverse community with excellent schools, wonderful cultural and recreational opportunities with a low cost of living. The University of Wisconsin – Madison has consistently been ranked among the top 5 to 10 research universities, and thrives on a noteworthy collaborative research atmosphere, including in the neurosciences.

We offer an attractive starting compensation and extensive benefits including malpractice coverage. We are seeking individuals who wish to work within a team to help build our clinical, teaching and research programs. Interested applicants, please visit our job board, at [Jobs at UW](#) (PVLs below) and submit a curriculum vitae/resume and cover letter referring to the position vacancy listing number below. Finalists may be asked to provide at least three letters of reference at a future date. Questions can be addressed to applications@neurology.wisc.edu.

Unless confidentiality is requested in writing, information regarding the applicants must be released upon request. Wisconsin Caregiver law applies. UW-Madison is an Affirmative Action/Equal Opportunity Employer.
